Information to your advantage.

As a leading provider of business information, the Compass-Gruppe can provide you with crucial advantages for your business processes and decision-making. Tens of thousands of users benefit from our broad digital offering with over 100 million queries per year.

Wirtschafts-Compass

Information in one place, intelligently and efficiently

All information on companies, individuals, and real estate is updated daily from Austrian registers and is extensively supplemented with research from the Compass editorial team. The Wirtschafts-Compass provides detailed information, including financial statements, new company formations, and insolvencies.

Integrated monitoring automatically reports changes. Ownership structures, beneficial owners, and politically exposed persons (PEPs) can be identified and clearly displayed using organizational charts.

Original extracts from the Business Register, Land Register, Beneficial Owner Register (WiEReG), and other registers can be accessed instantly. Credit reports and property valuations are also available through our partners.

Ideal for KYC and compliance processes.

The API allows the data to be seamlessly integrated into existing systems.
